Dear Educator:

Education is increasingly dominated by big business. Big test makers. Big software programs. Big promises—and even bigger expenses. But are these trends helping students?

Townsend Press isn't a big business. We're an independent publisher with a single focus: to help students thrive—in the classroom and beyond.

For more than 25 years, our *Ten Steps Series* has set the standard for clarity, ease of use, and efficacy for college students working to build their reading skills. Today, *Ten Steps* is stronger than ever.

Offering two new editions this year, we've kept our text prices unchanged at \$29. *Ten Steps Plus*, our comprehensive and ever-expanding collection of electronic *Ten Steps* materials, is available for **just \$6** when purchased with a textbook. We know students face major expenses in college, and we are committed to keeping those costs down.

We invite you to explore our print and electronic offerings. If you'd like to discuss what you see, please write or call us. You'll discover we are as passionate about helping your students learn as you are.

We hope to hear from you soon!

“ The students and I found the [*Ten Steps*] book to be a great source for learning and reinforcing reading skills. . . . The clear and concise explanations facilitated the introduction of the skills. The scaffolding of the exercises helped students progressively move toward a higher level of critical reading and thinking. The readings not only helped the students apply the skills to full-length writings, but they also promoted critical thinking discussions. On behalf of the students and myself, thank you. We had a very successful semester! ”

Chapter 7: Inferences
Mastery Test 1

You are in Student View! You are seeing your class as students do.

Click on the inference that is most logical, based on the information given in the selection.

(1) Shortly after the young woman sat down in the bus, she lit a cigarette. (2) The man next to her waved some smoke away, nudged her, and pointed to the sign at the front of the bus.

(3) The woman did not turn to look at the man and continued smoking calmly. (4) The man got up and spoke to the bus driver, who continued driving and shook his head. (5) At the next stop, the man, looking disgusted, got off the bus.

B3. Click on the logical inference.

a. The man had never smoked. ❌

b. The smoke was bothering the man.

c. The man had recently given up smoking.

The correct answer is **b**.

The fact that the man "waved the smoke away" (sentence 2) suggests that the smoke was bothering him. There is no support for answer a or c.
